Meet us at Hall 6, Stand F250B

Danger Mines

**Excellence in mechanical landmine clearance**

The advertisement features two white MineWolf tracked vehicles equipped with mechanical clearing systems. The vehicle in the foreground is positioned on a sandy terrain, with a red triangular warning sign that reads "Danger Mines" and a skull-and-crossbones symbol. In the background, a large, bright orange and yellow explosion is occurring, with thick black smoke billowing upwards. The MineWolf logo, consisting of a red square with a white wolf silhouette and the text "MineWolf SYSTEMS", is visible on the side of both vehicles. The overall scene is set against a clear blue sky.
